

## Tag 1099 by Vendor

Last Modified on 04/21/2023 12:13 pm EDT

Shows all payments for a vendor with the ability to change the 1099 status for each.

You may tag all payments by selecting the code and clicking **Tag All** at the bottom left of the screen; you may then tag each payment with a 1099 code (or blank for none).

You can also edit the vendor's 1099 information (W9 on File, Federal ID#, and Type) at the top of the screen.

As you change the 1099 status here, 1099's get auto-created, so if you had already run the generate, this will recreate all 1099's for this vendor.

Running the [generate](#) at any point will recreate all 1099's for every vendor.
